## Ladies' Guild

### Bazaar to be Held Nov. 21

Mrs. M. H. Ward was hostess to the November meeting of the Ladies' Guild on Thursday, the twelfth. Twenty members answered roll call. Devotional services were led by Mrs. J. Mackie. Arrangements were completed for the Annual Bazaar and "Made in Canada" sale with the following as conveners: 49 and 98c booth, Mrs. C. G. Taylor; miscellaneous booth, Mrs. R. Fonger; candy booth, Mrs. E. B. Doten; "Made in Canada" booth, Mrs. M. Ward. The fowl supper, which begins at 6 o'clock, has as conveners, Mrs. Neale McColman, Mrs. Robt. Bell has charge of the selling of the supper tickets at 40c and 25c. Mrs. R. B. Williams assisted the hostess in the serving of refreshments.

## Shouldice News

The many friends of Mr. and Mrs. W. F. Leadbeater will regret to hear of their inestimable loss by the death of Idy, their six and a half month old child, which took place on Sunday after a brief illness. The funeral was held on Tuesday. Mr. Sharpe conducted a short service at the home, after which the body was taken to the Glenelch Cemetery for burial, where she will rest beside her brother who predeceased her by three years. Rev. Mr. Davis conducted the funeral at the graveside. We cannot, Lord, Thy purpose see, But all is well that's done by thee.

Among the floral tributes were wreaths from: Father, Mother and Brothers; Uncles Alvin, Bert and George; Aunt Estella; Grandmother and Grandfather Leadbeater; Mr. and Mrs. McCorchal, Medicine Hat.

The last dance at Shouldice, on the 6th instant was a very pleasing event. The hall was comfortably filled and everyone seemed to enjoy themselves. Jack McRae was "right there with the squares, Mr. Brenner adding to the enjoyment by pouring forth with an occasional humorous blast. Mr. Edwards was the M.C. and supper was served by the ladies, who are never failing helpers.

On hearing a commotion at the rear of the house, I looked out through the window and saw something—I could not make out what. All I caught up in the corner of the fence was a little bit of white and what looked like parts of a boy and parts of a dog. On hearing the cries of a child in distress, an occasional squeal, and now and then a short bark of a dog, I rushed out to investigate. The sight reminded me of a rugby football scrimmage, and I lived into it myself, to straighten out the fracas. The first thing was to shoo off a brown dog that was forcing its play further into the corner than help an excited boy to his feet, Mr. about it.

## Meeting of School Fair Executive

The Executive Committee of the Arrowwood School Fair Association met at the home of Mr. and Mrs. Lewendon last Friday evening with nearly all members present. The meeting was called to order by the President Mr. Richards and following this, Mr. Bird, the retiring Secretary-Treasurer was called upon for a report on the school fair work. In this Mr. Bird delivered some very good suggestions as to the management of the next fair. After the adoption of the report Mr. Bird was presented with a purse of money by Mrs. Lewendon. This was token of esteem and appreciation of the valuable work he had done towards making the Fairs, a success. Mr. McCullough was elected to finish out the Secretarial work for the year. At the adjournment of the business meeting lunch was served by Mrs. Lewendon.

## Buffalo Hill News

Mr. and Mrs. J. M. De Witt spent Tuesday in Calgary.

Mrs. W. Steiner entertained Mrs. Leonard, Mrs. Smith, Mrs. McColman, Mrs. McInenly and Helen at afternoon tea on Friday.

Owing to the recent cold snap the road work has ceased.

Helen McInenly is spending a few days visiting the Vancil Girls.

The Buffalo School children are now practising for their Xmas entertainment. The date is Dec. 22. Every body welcome.

## Reduced Fares Are Set For Christmas Holiday

Special concessions in the way of reduced fares by railroads will be granted the general public during the Christmas and New Year's holidays between stations in Canada. Fares will be one-way ordinary first class fare and one quarter for the round trip, minimum charge fifty cents, good going Wednesday Thursday and Friday, December 23, 24, and 25, 1931, and good for return passage up to and including Monday, December 28, 1931; also good going Wednesday, Thursday and Friday, December 30 and 31, 1931, and January 1st, 1932 and good for return passage up to and including Monday, January 4, 1932.

The dance fostered by the P.T.A. last Saturday night was enjoyed by a good turnout of dancers.

who held tightly, in his small hands, the legs of a big white rooster. The dog advanced and snapped at the head of the head of the rooster and had to be shooed off again. After a little straightening out the boy marched away with his captive securely held by the legs. If you want to know more of this story, ask Bruce Moir about it.

## School Notes

Donald (to Norman) "I'm going to hit you so hard that the President's Special will have to bring you back."

Marjorie: "Now, please desist. No cruelty to dumb animals."

The reports have gone home—and most have come back. But already a few of the students have cut out part of the fooling and have resolved to cut their social evenings down to no more than one a week to see if their marks will take a decided jump (ahead of course) in the Christmas exams.

Jack—"Did you hear that one about the three eggs?"

Malcolm—"No."

Jack—"Two bad."

Arrowwood High School, Nov. 17.—The Principal today gave the statements to the press that he was well satisfied with most of the marks in the exams, as that he expected better marks at the December examinations. May his expectations be justified!

John Irwin (to Willy): "Here's some candy—sweets for the sweet."

Willy: "Thanks. Have a nut."

Winners in the spelling match in Miss MacLeod's room last week were:

Grade III—Freda Board.

Grade IV—Charlotte Kelly.

Grades VII and VIII held their Literary meeting last Friday and the most interesting part of the program was a short dialogue by Jack Williams and Dale McKinley. The Editor, Teddy Weins, delivered some interesting news items to the class. Following the program the girls showed themselves superior as mathematicians, defeating the boys in an arithmetic match.

Harold Eshom (calling for the first time): "Is this the parlor?"

Ruby Hall: "Yes, father calls it the mush room."

At the Pageant on Remembrance Day, Miss MacLeod's room distinguished themselves in a very creditable manner. Grace Board spoke and acted her part particularly well.

## WEDDINGS

**Brubaker-Brotton**  
A quiet wedding was solemnized at Irricana on Thursday, November 12th, when Rev. I. M. McCune united in marriage Florence Brotton and Wilbur Brubaker, both well known residents of the Arrowwood district.

After the wedding ceremony the happy couple left by motor for Edmonton on a visit with friends.

## Card of Thanks

Mr. and Mrs. W. F. Leadbeater, of Shouldice, wish to thank their many friends for kind expressions of sympathy and floral tributes during their recent sad bereavement.

## Hockey Club Organizes

At a fairly well attended meeting of hockey fans last Tuesday evening the Arrowwood Club reorganized for the coming season. Those present seemed very enthusiastic over the prospects of the formation of a team which would represent the town.

Harry McCullough was elected President while Jack McLeod was elected as Secretary-Treasurer. The matter of manager for the team was left until a later date but the boys have suggested Mr. P. Norton as manager. With the advent of cold weather the boys soon hope to begin practicing.

## Hockey Interest Is Stirring

As hockey season approaches interest in the great Canadian winter sport is beginning to stir in Bassano.

The Juveniles will put their team on the ice again this winter. They have a powerful line—up, including such clever young stars as Ralph Arriens, Lloyd Leonard, Austin Ford, Stanley Wright, Peter MacLean and others. The Juveniles are trying to get into the provincial championship playoff, and are now making enquiries as to the requirements.

With two of Bassano's senior hockey stars not expecting to "show" here this winter, Jack Bulmer and Ralph Marquardt, the outlook for senior hockey is not so bright. There is however some new hockey material in town and the seniors may be able to organize a strong team in spite of the loss of two of their best players—Bassano Mail.

## Additional Locals

Buy your Xmas presents at the 49c and 98c booth Saturday.

Born—to Mr. and Mrs. Preston Shatto on Monday, Nov. 16 a son.

Mr. G. Leith returned on Wednesday from Black Diamond where he has been doing some carpenter work.

Eat your Saturday night supper at the Ladies' Guild Bazaar, 40c and 25c.

The Junior U.F.A. will meet at the home of Mrs. M. H. Ward Tuesday, Nov. 24, at 8.30 p.m.

L. F. Christenson and E. B. Doten brought in six fine geese last Friday. Mr. Doten said it was a game of freeze out and the geese lost.

Mr. and Mrs. Ralph Whipple left for Neilburg, Sask., after a two week visit among friends and relatives in Arrowwood district.

There will be church in the St. Columbus R. Catholic Church on Sunday, Nov. 22, at 10 o'clock.

Mrs. V. M. Gilbert has returned from Calgary to her home in Glenelch, but it will be necessary for her to rest for the next few weeks.

## M. R. Leonard

### Elected Councillor

Yesterday's poll resulted in the election of Mr. M. R. Leonard as Councillor for Arrowwood to fill out the unexpired term of A. J. Tray. It was a very tight poll, only 64 votes were cast out of the 151 on the voters' list.

Mr. Leonard received 42 votes and Mr. Ingraham 22 votes.

## Regular Meeting of the U.F.W.A.

The U.F.W.A. met at the home of Mr. R. Leonard on Wednesday afternoon, with twenty members present. Mrs. Ellis gave a paper on "Mexico City," and Miss Le Beau entertained those present by giving two readings, Mrs. Ellis, Mrs. Norman, and Mrs. McRae were nominated to act as delegates to the Provincial Convention which will be held in Calgary on Wednesday Dec. 16th.

A dainty lunch was served by Mrs. McRae of Shouldice.

The next meeting is the annual meeting and will be held at the home of Mrs. E. Lewendon on December 2nd. Mrs. Heaketh assisting hostess.

## Women's Institute Elects Officers

At the last regular monthly meeting of the Arrowwood W. I. the annual election of officers took place at the home of Mrs. G. Leith, the following were elected to office:

Pres.—Mrs. N. McColman.  
Vice-Pres.—Mrs. C. G. Taylor.  
Sec. Treas.—Mrs. G. Leith.  
Directors—Mrs. Leonard, Mrs. Kerr, Mrs. Bishop, and Mrs. Weins.

Home Economics—Mrs. G. F. Kemper.  
Legislation—Mrs. J. M. Weins.  
Children's Welfare—Mrs. E. Lewendon.

Agriculture—Mrs. Mackie, Sr.  
Education—Mrs. J. Mackie, Jr.  
Canadianization—Mrs. M. Leonard.

Sunshine—Mrs. T. S. Board.  
Auditors—Mrs. R. H. Bishop and Mrs. G. G. Smith.

Mrs. J. M. Weins occupied the chair for the meeting in the absence of the President, Mrs. N. McColman.

Mrs. F. E. Bell was appointed convener of arrangements for the Institute's annual Christmas party, and Mrs. E. Lewendon was appointed convener of the refreshment committee.

A one-day course on dry cleaning was accepted by the institute as their work offered by the extension department.

Mrs. R. E. Hales and Mrs. T. Board assisted Mrs. Leith in serving tea.

## Brethren Young People Re-organize

The Brethren Young People reorganized on Thursday Nov. 12. The following officers were elected:

Pres.—Pearl Armeay  
Vice Pres.—Alberta Burger  
Sec.—Dorothy Vancil  
Treas.—Chester Armeay  
The next social is to be held at Mrs. Hall on Nov. 27.

## Noses

If your nose is close  
To the grindstone rough  
And you hold it down  
There long enough  
In the end you'll say  
There's no such thing  
As brooks that babble  
And birds that sing.  
These three will all  
You would compose  
Just you, the stone and  
Your darned old nose.

A lecturer we once heard  
Made much of people's noses.  
There was the little turned nose  
That made one think that there  
Was bad odor constantly beneath it.  
There was the long pointed nose  
That made one think that there  
Was a poke into other people's business.  
And there was the large Roman nose,  
The kind that roams all over the face.  
And I have forgotten all his  
Classes to say nothing of subclasses  
Which he enumerated and described.

Now I do not have the privilege  
Of choosing our parents.  
And sometimes the clergyman  
Inflicts terrible names upon  
Helpless babies of course, at  
The suggestion of parents. And  
We are prone to put our feet  
In this class. It is quite  
True that shade of hair, color of  
Eyes, forehead or chin and even  
Our nose may mark us as the  
Son of our father. But there  
Are other than inherited features.  
It may be that a "turkey  
Chin" indicates quarrelsomeness  
And a narrow forehead  
Stubbornness, but we know our  
Battle ground we are on, the  
Way to victory. If we cannot  
Iron out our chin we can  
Cultivate sociability and if we can  
Not shrink our nose we can  
Keep to our own affairs. No  
One is damned into this world  
Although Dean Swift had good  
Reasons for making that remark.  
Some are born under  
Terrible handicaps that seem  
Insurmountable while others with  
No credit to themselves have  
Wonderful advantages. But  
Handicaps and advantages are  
Not final and more often we  
Fail in our advantages than  
Under our handicaps. Even our  
Features are in our own making.  
A kindly heart will transform  
Even the ugliest of facial  
Contours. Then let us laugh  
And sing and play. Too many  
Are already at the grindstone.

UNUS SOLUS.

Silk stockings should be washed  
and rinsed in tepid water.

Colored handkerchiefs should  
be soaked in cold water containing  
a little salt before they  
are washed to prevent fading.

Athletic Club swimmer, has  
been playing water polo for  
thirty-six years. He won his  
first swimming race thirty-nine  
years ago.

## Health Service

OF THE

## Canadian Medical Association

Edited by

GRANT FLEMING, M.D. — ASSOCIATE SECRETARY

In Canada, approximately 100,000 deaths occur each year. Out of the total number, just over 8,000 are the direct result of tuberculosis. In our campaign against this disease, we are encouraged to know that, despite the heavy toll of human lives which tuberculosis continues to take, the number has nevertheless been greatly reduced. Year by year, the ravages of tuberculosis are being lessened.

But what of those individuals who make up the present number of victims? Can nothing more be done for them than is being done? We have no specific means of prevention against tuberculosis, nor has there been discovered, as yet, any specific remedy to cure the disease. Tuberculosis is fought, and fought successfully, through leading a hygienic life.

The person who has developed tuberculosis and who goes to a sanatorium for treatment, is not given drugs or other remedies. The treatment consists of rest, fresh air and proper food. He lives a hygienic life and takes an additional amount of rest. Rest is necessary in order to allow the diseased part to heal.

The power of nature to overcome tuberculosis and bring about a cure is great. The disease is generally a long-drawn-out conflict between the germ of the disease and the body. The body stands an excellent chance of winning, provided, that a early sage of the disease, it is given a fair chance to do so through rest, fresh air, and proper food.

The cases which occur are due first of all, to exposure to the germs of tuberculosis which come from someone who has the disease, to which is added failure to live a healthy life, giving the germs their chance to multiply and cause trouble.

Most of the deaths which now occur are due to the failure of the individual attacked to secure treatment early. Safety demands prompt attention; danger follows delay.

In order that cases may be treated early, it is necessary that they be recognized early. This means that the case must go early to his doctor and be examined. The person who goes to his doctor once a year for a health examination gives the physician the opportunity to discover such diseases as tuberculosis in their early stages, and so secure early treatment.

The person who has a persistent cough, or who has lost weight, or who finds that his ordinary work tires him when it did not do so formerly, should realize that such conditions are suggestive of tuberculosis. They may not be, but if they are, the sooner it is known the better, for then treatment can be started.

If tuberculosis does occur, safety lies in prompt treatment and in nothing else.

## Three "P's in a Pod

There are three qualities that man must possess ere he can be entitled to success in this work-a-day world. They are Pluck, Perseverance, Patience.

A prominent journalist addressing a college graduating class on one occasion said to the young men, "When you go out into life to battle for yourself don't allow any man to cut your nerve." Here is necessary advice to start with, some people make a specialty of the nerve cutting business. The result is that the young man or woman starting out in life with much enthusiasm and vision, is apt to become discouraged by these seasoned cynics, who like to sneer and oppose and discourage. So don't allow any man to cut your nerve.

Then persevere: Have a good ambition and stick to it. This world yields to the man of persistence. Nothing eventually can stand in his way.

But in addition to perseverance we must have patience. Patience is not so appreciated in youth as in middle age. Nevertheless as we peg away at things we find that they will not at times yield easily. Not merely perseverance is needed but patience also, if discouragement and pessimism will not set in. And whatever we do let us not become pessimistic. Pessimism is a person that ruins the mind. So then have a good ambition: stick to it and be patient with it. Then happiness is yours—Ex.

## FIRST PRINTER'S DEVIL

He was a young Negro slave employed by Aldus Manutius. Aldus Manutius who in 1488 set up his office in Venice, has long been famous as the first of the publishers of the famous Aldine classics, which today are so highly prized, by book collectors. He was the author of a Latin grammar, a great dictionary and a treatise on the metrical methods of the poet Horace and originated the form of type known by us as Italic and by German printers as "cursive type."

He is also said to be responsible for the name of "printers devil," almost worldwide in its application to the youngest hired boy in his office. A young Negro slave employed in his office who was so very black and dirty that his natural ugliness had become an almost fiendish expression became feared and known all over Venice as "the little black devil," and Manutius at last realized that the boy and himself had dangerously awakened the superstitious, fears and dislike of the more ignorant of the Venetians. He accordingly formally exhibited him during the whole day on the public streets and had the criers make this proclamation throughout the city:

"I, Aldus Manutius, printer to the holy church and the doge, have this day made public exposure of the printer's devil. All who think he is flesh and blood may come and prick him."—National Magazine.

## Here and There

Maple sugar and maple syrup produced in Canada in the spring of 1931 had an estimated value of \$3,537,700 of which the former accounted for \$330,800 and the latter for \$2,606,900. The Province of Quebec is the largest producer in the Dominion.

Following a long succession of shipments in an experiment commenced a year ago, thirty-five cars of beef cattle, the bulk of them for British consumption, left Winnipeg recently by special Canadian Pacific train for the Atlantic seaboard for shipment to Great Britain.

Thousands of salmon recently "took the elevator" on their way to the spawning grounds in the upper sections of the Stamp River, British Columbia, when they used the fishway built by the Canadian Government Department of Fisheries to overcome the tumbling waters at Stamp Falls.

With the departure on October 1 of the big Sikorsky amphibian plane for Boston, the Pan-American Airways concluded their service between Boston and Halifax which was inaugurated August 1. In August, 70 passengers were carried on the southbound trips and 67 northbound in 18 flying days.

Manitoba's threshing was practically complete for 1931 in the first week of October, according to the weekly crop statement of the Canadian Pacific Railway department of agriculture. Saskatchewan was then 61 per cent. threshed and Alberta 55 per cent., with northern areas in each province still holding heavy crops ripening for the machines.

His Excellency the Earl of Bessborough, Governor-General of Canada, together with his eldest son, Viscount Duncannon, have in view hunting and fishing trips in New Brunswick next year. During his recent visit to the province, His Excellency was presented with a complimentary hunting and fishing license by Hon. C. D. Richards, Premier of New Brunswick.

Completion of organization work of the Dominion Agricultural Credit Company was announced recently by E. W. Beatty, chairman and president of the Canadian Pacific Railway, who stated that "subscription to over sixty per cent. of the capital stock of the company have been received and the requisite steps to complete the organization have been taken." Head office of the company will be in Regina.

The new dental car, built by the Canadian Pacific Railway and equipped by the Rosedale, Toronto, Chapter of the I. O. D. E., was turned over for use in Northern Ontario to the Ontario Government recently. This car, claimed to be unique on the continent, will have running rights over all railway lines in Northern Ontario and is equipped with fully modern dental facilities, waiting room, living accommodation, laboratory, consulting room, clinic and dental chair.

The number of Canadians who are part owners of the Canadian Pacific continues to increase. A year ago, on September 2, the total number of the company's Canadian stockholders was 26,155. On September 1 of this year the number had grown to 35,217, an increase of 9,032 shareholders. Many of these have been added since the recent break in the security markets carried stock prices to new low levels indicating that Canadians have confidence in the country's ability to "come back" to prosperity. ### Be Patient With the Children

They are such tiny feet,  
They have gone such a little way to meet  
The years which are required to break  
Their steps to evenness and make  
Them go  
More sure and slow.

They are such little hands,  
Be kind—things are so slow and life but stands  
A step beyond the doorway. All around  
New day has found  
Such tempting things to shine upon, and so  
The hands are tempted oft, you know.

They are such fond blue eyes  
That widen to surprise  
At every turn. They are so often held  
To sun or showers—showers soon dispelled  
By looking in our face.  
Love asks, for such, must grace.

They are such frail, frail gifts  
Uncertain at the rifts

Of the light that lie along the sky—  
They may not be here by and by.  
Give them not love but more above  
And harder—patience with the love.

### Don't Knock Your Own Home Town

The Carbon Chronicle in reference about the home town says:

One can scarcely visit any small town without hearing someone make the following or similar remark. This is the dearest hole on earth, there is simply nothing doing in the town, I am dying to move to the city.

Such people want to be amused every minute of the day and most of the night in order that they may not have time to reflect on the empty dry husks of their own lives, if ever they find themselves unamused they see their own town as their own lives are—empty and lifeless. On the other hand, our town may be a little below its

possibilities and it may not be the lure of the city that is causing the trouble.

"A man, on visiting a city asylum, said to one of the guards 'Are you not in danger? What is there to hinder these many insane people from getting together and locking you few guards up?' The guard replied 'If these people were wise enough to get together they would be in their homes in the country unguarded.' Is there not a home town anywhere that has not sometime suffered from the lack of getting together? Social activities, educational interests and religion, the very things that should unite people too often become walls of separation.

"When this is the case the home town becomes unattractive, the young people leave. The older people live most monotonous lives. Many go to the cities to jostle with the altogether too many strap hangers that are already there. Ninety and nine out of every hundred of these brilliant young folk, with abilities capable of greatness, when once in the city become lost. Often they become costly liabilities.

Let us strive to make the home town playground, school and church more attractive and more interesting. No home town can afford to spend year after year in raising a crop of young lives for the city to devour and destroy. That is the very poorest kind of business all going out and nothing coming in. The world is becoming poorer in life and richer in misery.

"Alberta is great. Overcrowded cities are never marks of greatness. Alberta's greatness must ever be found among the people who live in her innumerable beautiful, rural homes, and in her character and quality of her countless home towns.

"When the prodigal came to himself, he thought of what he had left in his home town. Whenever one will stop chasing fraudulent wealth, giddy amusement and empty power long enough to think, one's thoughts will always come home with a vision of the greatness of life's opportunities, tasks and pleasures that are found at home. The greatest things that God can possibly offer us are right at home. Here are our tasks. Here our material. Here our joy. If we realize this our home town will be one grand happy place throughout the years to come."

### Winter Care of the Beef Herd

(Experimental Farm Note)

The kind and amounts of feed used in the winter feeding of the beef herd should be governed to a large extent by the condition of the cows and young stock when they go into winter quarters. If they go into the winter in poor condition, due to a shortage of feed on pasture, grain should be added to the ration fed to the bred cows to get them into fair condition before calving, and also to cows nursing their calves if good condition on both cow and calf is desired. Cows in calf should not be allowed to run down in flesh, else they will be unable to produce vigorous calves and nourish them with a good flow of milk.

At the Dominion Experimental Station, Lacombe, Alberta silage made from corn sun flowers, or oats forms the principal part of the winter ration from the beef herd. Cows and calves relish it and thrive on it when supplement is added. The silage has laxative properties which keep the digestive organs of the animal in good condition. The usual quantity of silage fed is about three pound per day for each one hundred pound of live weight. The silage is supplemented with a good hay (legume preferred) and other roughage such as "out hay" or greenfeed. The usual practice is to give the herd all the hay or green feed they consume twice daily without unnecessary waste. If, however hay is scarce or high in price the amount of hay is reduced and more silage fed.

In order to keep the young stock growing and thrifty and the cows that are nursing calves up in condition, some grain is fed. Oats which forms the basis of the ration is mixed with barley, a little bran and at times, for high class cattle, a little oil-cake. Grain ration for such young stock and cows will vary from 1 or 2 pounds per day up six or eight according to conditions.

The breeding herd is turned out daily for exercise, except in stormy or unusually severe weather, in a yard which is sheltered from the prevailing winds. Water is always available in a trough with a tank heater and coarse salt is placed in boxes in the yard where the cattle can lick it at will.

### HARMONY IN COLORS

Red and violet do not accord well.

Orange and yellow accord comparatively better than red and orange.

Orange and green do not accord well.

Orange and violet accord assembly.

Yellow and green form an agreeable combination.

Greenish-yellow and violet blend nicely.

The arrangement of yellow and blue is more agreeable than that of yellow and green, but less lively.

Green and blue produce an indifferent effect but better when the colors are deep.

Green and violet especially when light form a combination preferable to green and blue.

Red and green intensify each other.

Orange-yellow, when placed by the side of indigo increase its intensity and vice versa.

### What Causes Oil Pumping?

In order to understand exactly why Simplex piston rings are so effective in the stopping of oil pumping, it is necessary to first understand what causes oil pumping and how and when it takes place. The varying thicknesses of cylinder walls found in 98% of motor casting; the unevenness of cooling due to the different amounts of space allowed for water passage; the unevenness of heat in the cylinder bore; the intake and the exhaust gas problem—all of these cause a distortion of the cylinder wall when the motor is operating. This consequently causes an "out round" condition and is almost always true even in new motors where the distortion may amount to .005" or .006" or more.

The ordinary type of compression or oil draining ring is round and seals the cylinder wall at every point of its face when the motor is cold. However, as soon as the motor is warmed up and running, the cylinder wall becomes out-of-round and the round piston ring of this type is not sufficiently flexible to shape itself to the out-of-round condition of the bore. Spaces are left between the ring and the cylinder wall where there is no contact and oil is permitted to pass up over the face of the ring into the combustion chamber.

Chauncey, O. Fifty bushels of apples have been stored in Chauncey high school, so that student may have something to munch this winter during recess

### Here and There

"What could we farmers hope to accomplish without our railways?" asked a Kentucky agriculturist recently. He added that no agency had contributed more to the prosperity of the farmer than the railways.

"I have never yet found any place where the salmon fishing could compare with New Brunswick," said Arthur Train, well known novelist, speaking at a camp dinner given in his honor recently by the New Brunswick Tourist Travel Bureau.

Encouragement came to western Canada's farmers and agriculturists with the return to normal temperatures and varying rainfall of mid-July. In the drought areas of Manitoba and Saskatchewan and to a less extent in Alberta very great benefit has been felt.

Authentic rainbow trout weighing 7 1/2 lbs. were taken recently in the French River six miles below the bungalow camp, the first ever caught there according to the oldest guide. It was caught by E. A. Farintosh, of New York, a yearly guest at the camp.

Since the split up of Canadian Pacific Railway common stock into four for one, this issue has taken on great popularity with the general run of investors. Between September and June 1931, the number of these increased from 21,186 to 34,872, an increase of 13,686.

Over 250 members from Ramesses Temple, Toronto, went to Cleveland recently by Canadian Pacific special to attend the annual convocation and imperial council of the Ancient Arabic Order of Nobles of the Mystic Shrine. This convocation was held last year in Toronto.

### Public Health Notice

Take notice that by virtue of the Public Health Act, and the regulations made thereunder, that whenever a householder ascertains, or has reason to suspect, that a person within his family or household is infected with any of the notifiable diseases (see regulation 1, clause (L)), he shall within twelve hours, give notice in writing, as follows:

(1) in health districts, to the Local Board;

(2) in improvement districts, to the Provincial Board.

Further, should any inmate of such house attend school, the householder shall within eighteen hours notify the head teacher or other teacher, of such school, or schools, of the existence of such disease.

When the head teacher or other teacher in any school in a health district ascertains or suspects that any pupil has a communicable disease, or that said disease exists in the house of any pupil, he shall forthwith notify the Local Board and the parent or guardian of such pupil, and until a medical certificate is produced from the Local Board that such disease does not exist in said house, such pupil shall not further attend school.

For violation of any of the above regulations, persons are liable under the penalties of the act.

Arrowwood Local Board of Health

Don't forget "Made in Canada" Sale Saturday.

There will be a miscellaneous booth at the Guild Bazaar, too.

Mr. and Mrs. M. H. Ward and family spent Sunday with Mrs. Ward's sister who resides at Strathmore.

Mr. Everett Bowman and Mr. and Mrs. A. J. Field started last Saturday to drive to Spokane but found too much snow through the Crows Nest and returned home the same day.

Wanted—Steady roomers and boarders. Reasonable rates. Apply Mrs. C. Bettler, Home Hotel, Arrowwood. 144

Mrs. P. H. Coleman of Mile, Alta., will be in Arrowwood every Tuesday to teach Piano class in the school. And will teach privately—Pupils, prepared for the various examinations in piano and harmony.

When meeting a lady on the street last Friday Allan Phillips was noticed raising his hat in salutation. According to Jack McLeod this was the first time Allan had had his hat off since a week ago Sunday.

A community shipment of dressed turkeys and all kinds of other poultry will be received at the store of L. F. Chrestenson and Co. by the Alberta Poultry Pool on Friday Dec. 4th. For further information enquire of Mr. Chrestenson.

Mr. E. G. Bird left Wednesday morning for Calgary where he will entrain for Kingston, Jamaica. We are all sorry to lose Mr. Bird and he will be missed. But Arrowwood's loss will be Kingston's gain.

On Wednesday Mrs. E. Lewendon received a letter from Mrs. Carr stating that Mrs. M. W. MacDonald had been taken to the Holy Cross Hospital at Calgary, and will undergo an operation. Mrs. MacDonald's many friends in Arrowwood hope for an early recovery.

### Blames Early Home Life for Increase in Youthful Crime

Scientific advancement is causing development of ideas at the expense of ideals in minds of Canada's younger generation, declared Hon. Chief Justice W. C. Simmons, when addressing a gathering of the young men's class in Knox United church Sunday afternoon.

The speaker spoke of the early life of the youth and the result of home influence, comparing it with stop-and-go signals, or danger and safety lights. Under the former heading, he dealt with the lack of home influence the failure to train and strengthen the mind, questionable associates, a desire for the superficial, and auto-suggestion as being a few of direct causes for the present increase in crime among those youths under 20 years of age, and between 20 and 30 years.

Safety signals, he said, included development of dual qualities of the mind—the ideal as well as the intellectual,—safety in acquired habits which become automatic or sub-conscious, and storing the mind or memory with selections inculcating, wisdom, purity and truth.

### Happenings in and Around Arrowwood

Delicious candy at the Guild Bazaar Saturday.

The Dominion Cafe has been closed for the winter.

Mr. and Lawrence Larsen are spending the day in Calgary on business.

Velma Lord has returned to school after being home for a few days on account of illness.

Mr. and Mrs. Jennejohn were the guests of Mr. and Mrs. A. H. Tharle on Sunday last.

Miss Pearl Arney spent the last week visiting with Dorothy Vancil.

Mrs. Ernest Sawyer spent Saturday in Calgary attending the wedding of her niece, Miss Helen Sawyer.

For real bagains in second-hand skates and boots, call in at the Sunshine Shoe Shop. Prices will surprise you.

Mr. P. L. Fike has moved his dairy equipment and cattle closer to town for the winter months and is now staying on R. B. Jones' farm.

The girls sewing circle had their first meeting at Chrestenson's on Monday night. Owing to the cold weather the attendance was small.

Mr. G. Leith's tender for the building of the porch at the pump house, was accepted by the Council, and will commence work shortly.

Through the voluntary efforts of a few curlers a splendid start has been made on one sheet of curling ice and with a few more days of zero weather the grand old game will be in full swing.

## "Curling"

By the number present at the Curling meeting is evidence that the old interest is still there and we have made a good start towards providing some winter entertainment.

"Make that ham and eggs pork chops," snapped a restaurant patron. "The Chef's too busy to do any tricks just now," retorted the Waitress.

There are, no doubt, many people these days, who are kept busy doing all sorts of tricks to their pump engines to get them started and to keep them running. A good trick to do is throw it in the back of your car or truck and bring it in and let us give it an overhaul and tune up. The satisfaction alone will be worth more than our price for the job. Maybe, too, it would be better and cheaper to replace your old one with a New John Deere, all enclosed, self-oiling pump engine. We will be glad to serve you in this way also.

For winter driving it is advisable to have the oils in your motor, transmission and

differential all changed to lighter grades to give proper lubrication and performance. We can put a grade of, Autolene Motor oil in your crank case that will give normal standing at 30 below zero, and with a winter grade of British American transmission oil in your gear housings and anti-freeze in your radiator, you can have summer performances from your car in the severest of winter weather.

By the way, we mentioned last week that we would give you a formula how to make Anti-freeze. There are several methods but we suggest you try hiding her pyjamas.

We will be making a couple of trips to the city the first of the week with part loads and will be glad to have some additional freight to help make up our loads at a considerate rate.
